Industrial Revolution Project

I. Students may work **individually or in groups of 2 or 3.**

II. Groups will choose 1 individual from the list, conduct research using ABC-Clio and other internet sources, and make & present a short power point presentation on the individual and how he/she was important to the Industrial revolution.

III. Presentations should include:
   a. Short biography of the individual
   b. Inventions and/or innovations of the individual, including visuals & explanations of the inventions
   c. How the individual’s inventions/innovations changed society in terms of industrialization & specialization of labor (CCS 6.2.12.C.3.a)
   d. How the individual influenced urbanization, population growth, migration and the environment (CCS 6.2.12.B.3.b)
   e. How the individual influenced global markets and a need for resources (CCS 6.2.12.C.3.b)
   f. Documentation of Sources

IV. Presentations should be about 5-7 slides including documentation of sources and should be about 5 minutes in length. Items c, d & e above should all be on one slide.

V. Individuals:
   1. Michael Faraday
   2. Henry Bessemer
   3. Wilbur & Orville Wright
   4. Alexander Graham Bell
   5. James Watt
   6. Samuel Slater
   7. Ned Lud & the Luddites
   8. Matthew Boulton
   9. Robert Fulton
   10. George Stephenson
   11. Samuel Morse
   12. Guglielmo Marconi
   13. Louis Pasteur
   14. Thomas Malthus & David Riccardo
   15. Henry Ford
